A

Aachen treatment of syphilis, 1205
Aschoff, Dr. L., honorary degree, 625
Aarons, Dr. S. J., medical treatment of uterine hæmorrhage, 1352
Abattoir, public, for London, 516
Abderhalden, E., Manual of Physiological Chemistry (review), 796
"Abdomen, the acute," (Annus Medicus, 1786)
Abdomen, two unique congenital deformities in the, of same patient, 440
Abdomen, congenital abnormalities in the, 454
Abdominal Aorta, Aneurysm of the (Dr. F. P. Nunneley) (review), 1076
Abdominal aorta, embolism and thrombosis of the, the result of mitral stenosis and consecutive cardiac thrombosis, gangrene of both feet and legs due to (Dr. H. W. Syers), 220
Abdominal atony in rickets, 878
Abdominal hysterectomy for fibroid under spinal analgesia, 1729
Abdominal lymphatic glands and stomach, sarcoma of, 1664
Abdominal operations, cause of fatal collapse after prolonged, 1729
Abdominal pregnancy, case of wrongly diagnosed, 285
Abdominal route, value of the, in operations for uterine cancer, 130
Abdominal section, general management of cases of, 1514
Abdul Hamid, enlarged prostate, 529
Aberayron, no water-supply and no drainage, 1475
Aberdeen Eye Institution, 901
Aberdeen University, Anatomical and Anthropological Society, 52
Aberdeen University quatercentenary, 194, 823, 943, 1012; and President of General Medical Council, 1558; honours to Italian men of science at the, 964; the Vatican and, 836
Aberdeen, Lunacy Board, 194; public health committee, 194; proposed sanatorium for, 1693
Aberdeen University Club, London, 1289
Abersychan, typhoid fever in, 1475
Aberystwyth Board of Guardians, 1383
Abnormalities, congenital, in the abdomen, 440, 454
Abnormality, congenital, of the genito-urinary organs, a case of (Mr. G. F. D. Smith and Mr. A. L. H. Smith), 156
Abolition of capital punishment, 1295
Abolition of imprisonment for contravention of by-laws, 1246
Abolition of quarantine for Mecca pilgrims, 1252
Abortifacients and quacks, 248
Abortion feloniously induced by dischylon, 387, 1681 (Annus Medicus, 1794)
Abortionists, convictions of, 1485, 1745; recent prosecutions of, 1613
Abortions, repeated, and ventro-suspension, 1594
Abram, Dr. J. H., gastric ulcer and dyspepsia, 1217
Abrams, Dr. Albert, amyl nitrite in hæmoptysis, 1686
Abscess, appendix, with an unusual complication, case of (Mr. Russell J. Howard), 160
Abscess, hepatic, two cases of, treated by the transpleural operation (Surgeon-Captain H. Taylor), 856 (Annus Medicus, 1785)
Abscess in right cerebral hemisphere, 1515; of lung, 1446; splenic, in malarial fever, 1159; trephining for intracranial, 1443; tuberculous, treatment of, 878
Abscess, perineal, flagellated protozoa in a (Dr. E. H. Hunt), 216
Abscess, primary, of the left lung exhibiting spontaneous cure; metastatic manifestation in the pelvis declaring itself after a year's latency with abscess formation and slow spontaneous cure. A case of actinomycosis (Dr. Edgar Trevithick), 158
Abscesses, pharyngeal (Dr. George E. Waugh), 845
Abuse (see Hospital abuse)
Academy of Medicine, Paris, 195
Accessory sinuses of the nose, study of anatomy of, 875; skiagraphy in diagnosis and treatment of diseases of, 875
Accident and Injury, Diseases of the Nervous System Resulting from (Dr. Pearce Bailey) (review), 1595
Accident to the Plymouth boat express, 179
Accident litigation in America, 821
Accidents, due to chloroform inhalation, 1232; due to petroleum lamps, 1379; provision for, on race courses, 452; to jockeys, 452
Accidental burning or overlying, mortality of children from, 143, 749, 960
Accommodation and motility, dependence of, upon the refraction, 811
Acetone, a new microbe producing: bacillus violarius acetonicus, 452
Acetone collodion, 908
Acetonuria and delayed chloroform poisoning, 1752
Acetonuria, acute, and anæsthesia, 1543
Acetozone, intestinal antiseptic, 1293
Acetozone, treatment of iritis, interstitial keratitis, by, 679
Acetylene and gas-stoves, 1363
Acetysal, 1391
Acidity, gastric, improved clinical method for estimation of factors of, 1730
Acidity of urine, new method for determining, and clinical value of the results, 1381, 1623
Ackery, Mr. John (obituary), 1718
Acland Home, Oxford, 1029
Acland, Dr. T. D., Cairo medical school, 1741
Acomb, Mr. L. E., note on a case of upward and backward dislocation of the clavicle, 524
Acromegaly, case of, 1216
Act (see Adoption of Children, New Zealand, Apothecaries, Commerce of Australia, Contagious Diseases (Animals), Coroners (1887), Coroners and Deaths Registration, Employers' Liability, Factory, Housing of Working Classes, Inebriates, Infectious Diseases (Notification), (Prevention), Lunacy, Medical of Victoria, Medicine Stamp Duty, Merchandise Marks (1887), Midwives, Oaths, Pharmacy (1868), Public Health, Pure Food of Victoria, Sale of Food and Drugs, Spirits, Trade Marks and Patent, Vaccination, Workmen's Compensation)
"Acteyner," a curious name, 1566

Actinomycosis, a case of; primary abscess of the left lung exhibiting spontaneous cure; metastatic manifestation in the pelvis declaring itself after a year's latency with abscess formation and slow spontaneous cure (Dr. Edgar Trevithick), 158

Actinomycosis of the cheek cured by iodide of potassium (Dr. R. Knox), 1213; and bakers in Austria, 471; case of, 1307; of the vermiform appendix, 996; suggested infection by tainted food, 1214

Actions against medical men by their patients and *vice versâ*, 390

Actions at law against a medical man for alleged communication of scarlet fever to a female patient, 250; against a medical man for alleged manslaughter, 42 237; against a medical man for alleged negligence, 1301; against a medical man for assault on a girl of six, 47; against dentists for alleged negligence, 1033, 1555; against a herbalist for practising as an anothecary, 58; against a man for injury from handshake, 1321; against proprietor of Tallerman Bath establishment for burns, 287; against two medical men for alleged malpraxis, 1618; against a medical man for typhoid contracted at a hydro, 1745 (Annus Medicus, 1792

Acute obstructism of the intestine, case of appendicitis complicated with, 1070

Acute yellow atrophy of the liver, 995; presumed case of, 916

Adami, Prof. J. G., arterio-sclerosis, 870; glanders and tuberculosis, 989; the part played by the nucleus in nutrition, 737

Adamkiewicz, Prof. A., cancroine, 1412

Adams *v.* Clarke and another—Clarke cited, 1682

Adams, Mr. C. E., unfounded reflections upon, 948

Adams, Mr. J., gonorrhœa, 1445

Adams, Dr. J. A., spasm of muscles of lower part of trunk and thighs, 1078

Adamson, Dr. H. G., lichen spinulosus, 1074

Adcock, Mr. G. E., trial of, 42; and death of Major Whyte (leading article), 237

Addenbrooke, Dr. B., note on two cases of scleroma neonatorum occurring in twins, 296

Addison's disease, blood pressure and pigmentation in (Dr. A. Rendle Short), 246

Addison's disease, 1355

Adenoma of the labium, 162

Adhesive pericolitis 129

Adler, Mr. J. Elrick, a radium applicator, 1506

Admiralty and physical training, 188

Adolescent or late rickets (Mr. H. H. Clutton), 1070 1258

Adoption of Children Act, New Zealand, amendment of, 1180

Adrenalin, 352

Adulteration (see Sale of Food and Drugs Act, Brandy, Butter)

Advertisement, a rather ambiguous, 276

Advertisements and circulars, 969; disgusting, 842; in public urinals, 204; misleading, 1630

Advertising and dentistry, 1006, 1169

Advice gratis refused, 1163

Advocacy, unfortunate, 1321

Aero-traffic, 1674

Æschylus (translated by Lewis Campbell) (review), 1731

Aerzte-Vereins-Verband (Union of Medical Societies), Vienna, and club appointments, 1313

"Affenspalte" in gorilla's brains and in human brains, 1314

Africa (see Congo, South Africa)

African arrow poison, physiological action of a recently discovered, 667

African, South, civil surgeons, 124

After-care Association, 1764

Age, old (see Centenarians, De Senectute, Senile, Longevity)

Agency routine, departure in, 907, 970

Agglutination of vibrios, further observations on the influence of calcium chloride on the (M. Crendiropoulo and Dr. Amos), 1722

Agnosticism and Determinism, 441

Agoraphobia—a remedy (Dr. Charles Mercier), 990

Agramonte, Dr. A., yellow fever, 1221

Agriculture and Fisheries, Board of, Annual Report of Veterinary Department of, for year 1905 (review), 166; horticultural exhibition, 1347; useful publication by, 176; and vivisection, 751

Agriculture, Department of, Belfast, 262

Agricultural research, promotion of, 245

Agriculture, United States Department of, and THE LANCET, 109

Ainhum, case of (Dr. D. M. Alexander and Dr. R. Donaldson) 858

Air, compressed, hardening of steel by a current of, 457

Air, embolism of, unique case of, with embolism of septic material, 166

Air, fresh, and influenza, 1828

Air, injection of, evacuation of a large chronic pleural effusion by, 1296

Air of the subways, condition of the (New York), 131

Air-borne infection, 1224

Air-supply of the House of Commons, 449

Aix-les-Bains, source des deux reins, 1106

"Albany" gas stove, 1361

Albumin, egg, case of idiosyncrasy to, 256

Albuminuria, functional, in athletes, 1663

Albuminuria, hæmatogenous (Dr. R. Hingston Fox), 497, 514, 680, 760

Albuminuria in late rickets, 1071

Albumoses, from bacillus enteritidis sporogenes, 1223; in rectal alimentation, 1261

Alcock, Dr. N. H., theory and practice of medical education, 921

Alcohol, and the diet of sailors, 1173; compresses in treatment of intestinal perforation, 1382; consumption of, and tobacco in Canada, 1179; death from rum, 1311; effects of in hospital and asylum practice, 299; estimated to give 90 per cent of body heat, 1300; in diseases, 997; in France, 1531; injections of in nervous affections, 822; in lunacy, 702; in rectal alimentation, 1266; is it normally present in the blood and tissues? 1299

Alcoholic fluids, the use of, 666, 970

Alcoholic poisoning, death from, 1485

Alcoholic subjects, pneumonia in, 954

Alcoholism: a Chapter in Social Pathology (Dr. W. C. Sullivan) (review), 1730

Alcoholism, increase of, amongst women in Austria, 1178

Alcoholism in France, 528

Alcoholism, the struggle against, 1756

Alden, Mr., meat inspection, 1563; medical relief and starvation cases, 1319, 1409; relief of sickness in Whitechapel, 1563

Aldous, Mr. G. F., psychology of the selfish motorist, 895

Alexander, Dr. D., arrow poison, 667

Alexander, Dr. D. M., case of ainhum, 858

Alexander, Mr. F. W., standardisation of disinfectants, 124; determination of sex by electrical influences, 322; electrolytic disinfectant, 483; electrolysed salt solution, 1457

Alexander, Dr. J. F., case of fracture of the sternum, 936

Algæ, prevention of growth of, in open reservoirs, 180

Alhambra, "thought reading" at the, 1269

Alias, a medical, 1109

Alimentary canal, and longevity, 1333; and streptococci, 1418

Alimentary hygiene, International congress of, Paris, 835 1313

Alimentation, rectal, the Bradshaw lecture on (Dr. Seymour J. Sharkey), 1263 (see also Rectal alimentation)

Alkali trades and factories and workshops, extensions of the provisions in regard to the control of, 1011

Alkaline picric acid test for sugar, 1140

Alkaptonuria, case of, 1216

Allan, Mr. H. W., presentation to, 1628

Allan, Dr. J., coexistence of diseases, 679

Allan, Mr. J., thoracotomy for traumatic hæmothorax due to a wound of an intercostal artery, 855

Allan, Dr. J. W., need for a progressive study of industrial diseases, 1218

Allbutt, Prof. T. Clifford, an address on words and things, 1120; a System of Gynæcology by Many Writers (review), 94; arterio-sclerosis, 870; honorary degree, 625; hygiene in elementary schools, 1394; "prodromata," 1304; the relation of blood pressure to arterial sclerosis, 728

Allen and Hanbury, Messrs., fire in Bethnal Green works, 1110; preparation of infants' food, 204

Alnwick, Mr. William Williams, 1801

Alopecia areata, recurrent attacks of, 1444

Alvarenga prize of the College of Physicians of Philadelphia, 1297

Alypine and novocaine, comparison with cocaine, 1614

Amalgamation of London medical societies, 240, 1381, 1469, 1512, 1562

Amalgamation, proposed, of medical societies in Victoria, 1555

Amalgamation scheme, City Orthopædic Hospital, 133

Amanita phalloides, consideration of the poisons present in, 739

Amann, J. A., Die Krankheiten des Beckenbindegewebes (The Diseases of the Pelvic Connective Tissues) (review), 1219

Amaurosis in infants, 367

Amazon, first report of the expedition to the, 1905, 668

Amblyopia (Annus Medicus), 1792

Amblyopia in young children, on a form of, consequent upon inherited syphilis (Mr. S. Stephenson), 357

Amblyopia, tobacco (Mr. Percy Dunn), 1491

Amblyopia and ptosis in an infant, 358

Ambulance, automobile, for city of London, 1542; carriage for Belfast, 962; horsed, 1294; motor, for Belfast, 466; motor wagon, St. Andrew's, 961; street, service for London, 39, 121, 201, 321, 1294, 1542, 1635, 1750; spring, the "Rastilon," 236

Ambulance, volunteer school of instruction, 1026 1621, 1748

Ambulance Association, Metropolitan Street, 39, 121, 201, 321, 1294, 1542, 1635, 1750; St. Andrew's, 193

Amenorrhœa and chlorosis, 1427

America (see also New York)

American, accident litigation in, 821; plague in (Annus Medicus), 1809

American, food of the workman, 1379; a new medical directory, 619; tinned meat, 18; opinion on value of rifle instruction, 1683

American Mosquito Extermination Society: Year-book for 1904–1905, containing the proceedings of the second anti-mosquito convention held in New York, December, 1904 (edited by H. C. Weeks and E. H. Hall) (review), 1289

American Roentgen Ray Society, annual meeting, 1400

Amino acids and metabolism, 730

Amœba, structure and functions of the, 738

Amœbic dysentery, 1494

Amœe, Dr. C. B. S., note on the treatment of catarrhal and gangrenous dysentery, 295; further observations on the influence of calcium chloride on the agglutination of vibrios, 1722

Ampulla of Vater, acute hæmorrhagic pancreatitis following obstruction of, 1379

Amputation of the shoulder-girdle, notes on two cases of (Dr. J. Crawford Renton), 154

Amputations of the foot, conservative, 1478

Amyl nitrite in hæmoptysis and in other hæmorrhages: recent results, 1435, 1685, 1830

Amyol, Prof. (Toronto) lysol and cresoline, 1563

Anæmia in childhood, some unusual forms of (Dr. T. B. C. Whipham and Mr. A. N. Leathem), 367

Anæmia, hypodermic injections of iron in, 384; in natives at Johannesburg, 718; pseudo-leukæmica infantum, 1147; a form of, in young children, 1677

Anæsthesia, after-effect of ethyl chloride, 257; in abnormal and constrained positions, 1287; surgery of central nervous system, 485; mortality under, in Hungary, 964

Anæsthesia in Dental Surgery (Mr. T. D. Luke) (review), 658, 760

Anæsthesia, local, strangulated hernia operated on under, 1435; medullary, series of 1000 cases of, 472; spinal, in surgery, 1160; with novocaine, 1404 (Annus Medicus), 1802

Anæsthetic, new method of administering, through a tracheotomy tube (Dr. Walter P. Cockle), 717

Anæsthetic (see "Anæsthunder," Beta-eucaine, Ethyl bromide, Ethyl chloride, Ethyl iodide, Novocaine, Phenol, Somnoform, Stovaine, Suprarenal extract, Alypine, Cocaine)

Anæsthetic apparatus, 962

Anæsthetics (review of in Annus Medicus), 1800

Anæsthetics for dental operations, precautions, 1298; in ocular therapeutics, 14

Anæsthetists, Society of, annual dinner, 1185; meeting of, 1287

"Anæsthunder," 1435

Analgesia (see Anæsthesia)

Analgesics in ocular therapeutics, 15

Analysis, Methods of Organic (Mr. H. C. Sherman) (review), 658

Analysis of canned meat, Ottawa, 1180; suspected food-stuffs, 523; of tinned meat, Wiltshire, 436; of the water from the holy well of Zem Zem, 450

ANALYTICAL RECORDS FROM THE LANCET LABORATORY.—Vasiment; (1) Red Voslauer Goldeck, and (2) Red Voslauer Goldeck Cabinet; Hommel's Hæmatogen (Free from Alcohol); Graminol; Axe Vale Cider; Artox Food; (1) Seltzo, and (2) Kenthop; Grape Port; Grape Juice, 30s.—(1) Tabloid Laxative Fruit Pastilles, (2) Tabloid Menthol and Eucalyptus Pastilles, and (3) Tabloid Menthol Pastilles; The "M D" Disinfectant Cream; The Dercetis Cigarette; Cape Colony Mineral Water; Pure Toffee; Diastase Cocoids; Reid's Stout, 799—Pancreon; Papkerchiefs; Antitis Pepper; Cream of Tartar; Protene Arrowroot; Cyllin Syrup; "Nourishing Stout"; Hercules Hungarian Mineral Water; Catheterpurin; "Tabloid" Hypo-

dermic Trinitrin, 1078, 1079—Preparations of Formates; Old Champagne Brandy (1854); (1) Soluble Products for Ophthalmic Use, and (2) Tabloid Xaxa and Dover's Powder; Miol; Swedish Bread (Schumacher); Styptic-renal Triturates; Chevalier Malt Flour; Vitalia, 1359

Anatomical Vocabulary in Four Languages (Nomenclature Anatomique en Quatre Langues) (Dr. Paul Rodet) (review), 506
Anatomy, chair of, in University of Manchester, 1030
Anatomy, Edinburgh Stereoscopic Atlas of (Dr. D. Waterson) (review), 444
Anatomy, Human, Atlas and Text-book of (Dr. J. Sobotta) (review), 1077
Anatomy, Human, Hand-atlas of (Prof. W. Spalteholz) (review), 1001
Anatomy, Histology and Embryology, the Frog, an Introduction to (Dr. A. M. Marshall) (review), 1076
Anatomy, Manual of, Systematic and Practical, including Embryology (Dr. A. M. Buchanan) (review), 1000
Anatomy, report of the Select Committee on, 672; study and teaching of, 886
Anatomy, Studies in, from the Anatomical Department of the University of Manchester (Mr. A. H. Young) (review), 444
Anatomy, Text-book of (edited by Prof. D. J. Cunningham) (review), 28
Anatomy of flowering plants, 506
Anchovies, tinned, condemned, 476
Ancient and modern soap, 1228
Ancient medical MSS. from Syria, 1157
Andaman Islands, sickness in, 267
Anders, Dr. J. M., a Text-book of the Practice of Medicine (review), 862
Anderson, Dr. (Yale), heart disease in athletes, 131
Anderson, Dr. J., tumour involving lung, pleura, and mediastinum, 1072
Anderson, Dr. J., C.I.E., appointment, 1539
Anderson, Dr. J. W., meningitis, 639
Anderson, Dr. W., diploma of membership of Royal College of Surgeons of England burnt, certificate issued, 1360
Anderson, Major A. R. S., splenic abscess in malarial fever, 1159
Anderson, Mr. W. M. A., honour to, 1377
Anderson-Berry, Dr. D., claim that Prof. von Behring held homœopathic doctrines, 1751
Anderson's College Medico-Chirurgical Society dinner, 1682
Anderston district, Glasgow, proposed new dispensary, 1311
Andrewes, Dr. F. W., a study of the streptococci pathogenic for man, 708, 775, 892, 1539, 1621; evolution of the streptococci, 1415
Andrews, Dr. H. R., Cæsarean section followed by removal of a fibroid tumour which filled pelvic cavity, 1510; gonorrhœa, 1445
Andriessen, Dr. W. L., death of, 1480; obituary, 1556
Anecdotes, medical, 1110
Aneurysm of the Abdominal Aorta (Dr. F. P. Nunneley) (review), 1076
Aneurysm of the Aorta and Heart Disease, with special reference to Prognosis and Treatment, (Sir William H. Broadbent and Dr. J. F. H. Broadbent) (review), 94
Aneurysm of the aorta, angina pectoris as an early symptom of, 177; broncho-œsophageal fistula due to, 1529; œsophageal symptoms in, 513; rupture of, into the vena cava, 265; with slow extravasation of blood into the pericardium, 1159
Aneurysm, arterio-venous, of neck, 1512, 1714
Aneurysm, carotid, and atheromatous aorta, simultaneous rupture of, 1510
Aneurysm, thoracic, successful treatment of a case of, threatening to rupture externally (Mr. E. K. Young), 773
Aneurysms cured by iodides, 647; Lancereaux's method in the treatment of, 256
Aneurysms of the great vessels, etiology, pathology, and treatment of, 129
Angina and Vincent's bacillus fusiformis, 1280
Angina, faucial, case of, with false membrane (non-diphtheritic) simulating diphtheria, 722
Angina pectoris, as an early symptom of aneurysm of the aorta, 177; effect of iodides in treatment of, 648
Angina, Vincent's, 24
Angioneurotic dermatitis in hysterical patients, 129
Angus, Mr. Charles, obituary, 271
Angus, Mr. H. B., large renal calculus, 1146; treatment of fractures by early movement and massage, 1515
Aniline and benzine, 308
Aniline workers, cyanosis in, 1774
Animals, goitre in, 1671; effect of meat diet on, 1778
Animals, living, experiments on, 201
Animals, wild, destruction of human life by, in India, 1252
Ankle joint, case of malunited fracture of both bones at the, 1215
Ankylostome parasitism among the native labourers in the Transvaal (Mr. W. G. T. Gosnell), 718
Annals of Ophthalmology (review), 1222
Annan fair, Professor T., on quackery, 309
Annett, Dr. H. E., appointment, 1475
Anning, Mr. J. J., presumed case of acute yellow atrophy of the liver, 926
Annual meetings (see Colleges, Hospitals and Societies, annual meetings of)

ANNUS MEDICUS.—Medicine and therapeutics, 1781; surgery, 1784; obstetrics and gynæcology, 1787; ophthalmology, 1789; forensic medicine, 1793; dental surgery, 1795; physiology, 1798; anæsthetics, 1800; the Naval and Military Medical Services, 1803; public health, 1805; exotic and tropical diseases, 1808; chemistry, 1812; the General Medical Council, 1813; the British Medical Association, 1813; the Fifteenth International Congress of Medicine, 1814; sanitary progress in Portugal, 1815; General Assembly of the International Association of the Medical Press, 1815; hospital funds, 1815; the free feeding of the school children in Italy and on the French Riviera, 1816; sanitation, 1817; temperance legislation in France, 1818; tuberculosis and the Northampton boot trade, 1818; visit of the London County Council to Paris, 1819; the battle of the clubs, 1819; the Chicago stockyards: the United States Government and THE LANCET, 1819; contributions from THE LANCET Laboratory, 1820; the benevolent agencies of the profession, 1821; honours to medical men, 1822; obituary, 1823

Anthracite coal, report of tests of grates submitted for consumption of, 182
Anthrax at Bradford, 192; at Exeter, 665; at Glasgow, 401
Anthrax: claim for compensation in Kent, 1222; deaths, 1754; from, in Liverpool, 969, 1215, 1691; Home Office and, 136, 413, 1246; in hairworkers, 192, 401; investigation board, at Bradford, 1381; prevention of, 138; primary intestinal, in man, 830
Anti-cholera serum (Dr. Allan Macfadyen), 494
Antidiphtheritic serum, prophylactic use of (Dr. W. W. Shackleton), 722
Anti-malarial campaign in Italy in 1906, 470
Antiquity of the "sea voyage," 1679, 1834; of organo-therapy, 1087
Antiseptic, intestinal, is sulphate of soda a true? (Mr. J. Maberly), 1280
Antiseptics in ocular therapeutics, 13; in operations, 1338; intestinal, 1292; in typhoid fever, 731; mouth, 1069; intestinal, in goitre, 1574
Antisepsis and longevity, 1331
Antistreptococcic serum, in puerperal fever, 654, 737, 879
Antitis pepper, 1078
Antitoxin, injection of, in diphtheria, by the intravenous method (Mr. A. O. Bisson), 929
Antitoxin, diphtheria, notes of two outbreaks of diphtheria successfully stamped out by the free use of prophylactic injections of, 191; treatment of diphtheritic paralysis with, 243, 322
Antitoxin, supply of, and the Metropolitan Asylums Board, 839
Antitoxines and Toxines (Dr. C. Oppenheimer) (review), 999
Antivaccination tactics, 1026, 1093, 1687
Antivaccinationists and vaccination, 1165
Antivaccinationists' refuge, 765
Antivivisection fountain, 204
Antivivisection societies' "press methods," 1374
Antral suppuration, 875
Antrim, County, Infirmary, 194
Antrum, drainage of the, 353
Ants and transmission of plague, 1234
Ants, white, preservation of wood from, 533
Aorta, Abdominal, Aneurysm of the (Dr. F. P. Nunneley) (review), 1076
Aorta, abdominal, embolism and thrombosis of the, the result of mitral stenosis and consecutive cardiac thrombosis, gangrene of both feet and legs due to (Dr. H. W. Syers), 220
Aorta, atheromatous, and carotid aneurysm, simultaneous rupture of, 1510
Aortic angina, angina pectoris as an early symptom of, 177; broncho-œsophageal fistula due to, 1529; œsophageal symptoms in, 513; rupture of, into the vena cava, 265; with slow extravasation of blood into the pericardium, 1159
Aortic disease, pulse in, relation of pulse curves to blood pressure (Dr. Thomas Lewis), 714
Aortic regurgitation, analysis of pulse curves of 20 cases of, 714
Aph-ro-dox, 1487
Apocynum and convallaria, 510
Apolant, Dr. H., cancer in mice, 655
Apothecaries' Act, inutility of the, 881
Apothecaries' Hall of Ireland, 53, 59, 1600
Apothecaries' Society of London, assistants of the, 532; dinner, 1383; pass list, 132
Apothecary's symbols, 453
Apparatus for extension of shortened limb 1259
Apparatus and remedies, new (Annus Medicus), 1789
Appeal on behalf of the factory girls' country holiday fund, 245
Appendicectomy an hour after parturition, 176
Appendicitis, acute, and a twisted ovarian pedicle existing at the same time (Mr. J. Cahill and Sir W. H. Bennett), 1585
Appendicitis and gangrene of the vermiform appendix considered as separate diseases (Mr. J. D. Malcolm), 213
Appendicitis, note on boric acid relative to (Mr. Reginald Harrison), 787
Appendicitis: its Pathology and Surgery (Mr. C. B. Lockwood) (review), 796
Appendicitis, 403; and boric acid, 1004; and Professor Bianchard, 394; and sewage, 394; and thymol, 394; beginning in the mucous membrane, 213; case of, complicated with acute obstruction of the intestine, 1070; collective investigation for German Government, 403; comparative frequency of, in men and in women, 529; as a cause of intussusception, 1659; and enamelled cooking vessels, 1764
Appendicostomy (Annus Medicus), 1787
Appendix abscess with an unusual complication, case of (Mr. Russell J. Howard), 160
Appendix, tuberculosis of the (Mr. C. B. Keetley), 4
Appendix, vermiform, case of chronic intussusception with complete inversion of the (Dr. J. W. Struthers), 1345
Appendix, vermiform, gangrene of the, and appendicitis, considered as separate diseases (Mr. J. D. Malcolm), 213
Appendix vermiformis, strangulation of the, in hernial sacs (Mr. H. S. Clogg), 1064
Appendix vermiformis, actinomycosis of the, 996; gangrenous changes in wall of, 213; in relation to pelvic inflammation, 737, 807
Appointments, various, 39, 40, 82, 133, 246, 401, 438, 462, 465, 534, 694, 768, 822, 834, 892, 949, 961, 1011, 1038, 1176, 1182, 1214, 1311, 1312, 1403, 1475, 1476, 1485, 1560, 1741, 1758, 1759
Appointments, weekly lists of, 62, 134, 202, 274, 340, 414, 474, 534, 695, 769, 840, 906, 968, 1038, 1108, 1184, 1258, 1320, 1410, 1486, 1564, 1636, 1698, 1763, 1833
Arbeiten aus dem Königlichen Institüt für Experimentelle Therapie zu Frankfurt-a-M. (Prof. Dr. P. Ehrlich) (review), 655
Arbroath Infirmary, meeting of directors, 262
Archives of the Middlesex Hospital (edited by Dr. W. S. Lazarus-Barlow) (review), 234
Archives of the University of Manchester, 34
Argentine boot beal, 204
Argentine republic, army medical department of the, 908; practice in the, 1185
Aristocracy in Health (Mary Foote Henderson) (review), 1596
Armamentarium, orthopædic, some contributions to the (Mr. Muirhead Little), 1343
Armenian hospital, 328
Armour, Mr. D. J., perforation in typhoid fever, 1727
Armstrong, Dr. G. E., successful removal of the spleen in a case of Banti's disease, 733
Armstrong, Prof. H. E., agricultural research, 245
Armstrong, Sir Alexander, the late, some relics of the, 341
Armstrong College, Newcastle, 132
Army, administration, 121; allowances in India, expenditure of, 894; choral singing in the, 1694; enteric fever in the, 942; hospitals, financial side of, 963; hygiene in the, 1683; projected changes in, 1675; mumps as an ailment of adult in, 191; foreign meat in the, 1749; physical training in the, 1830
Army medical reserve, 1625, 1753; of officers, 1620
Army medical sanitary organisation scheme (leading article), 306
Army Medical School at Washington, 329

Dawson on blood pressure in relation to disease, 728; Dr. G. A. Gibson on clinical methods of investigating the blood pressure, 728; Sir William H. Broadbent on the clinical and therapeutical indications of morbid blood pressure, 728; Prof. T. Clifford Allbutt on the relation of blood pressure to arterial sclerosis, 738; Dr. Alfred Stengel on some clinical manifestations, visceral and general, of arterio-sclerosis, 729; Prof. Russell H. Chittenden on over-nutrition and under-nutrition, with special reference to proteid metabolism, 729; Dr. L. F. Barker on amino-acids and metabolism, 730; Dr. W. B. Thistle on the treatment of typhoid fever, 731; Mr. Sinclair White on the surgical treatment of ascites secondary to vascular cirrhosis of the liver, 731; Mr. J. Lynn Thomas on enucleation of the prostate, 732; Dr. G. E. Armstrong on the successful removal of the spleen in a case of Banti's disease, 735; Dr. A. H. Freeland on the relation of gynæcology to the work of the general practitioner, 733; Prof. Adam H. Wright on concealed accidental hæmorrhage, 735; Dr. W. Gardner and Dr. J. R. Goodall on chronic metritis and arterio-sclerosis of the uterus, 734; Dr. Arthur E. Giles on a study of 146 consecutive cases of ventro-fixation of the uterus, 734; Dr. Charles A. L. Reed on changes in uterine fibroids after the menopause considered with reference to operation, 735; Dr. H. L. Reddy on indications for Cæsarean section other than pelvic deformities or tumours, 736; Dr. T. A. Helme on the appendix vermiformis in relation to pelvic inflammation, 737; Prof. Adami on the part played by the nucleus in nutrition, 737; Prof. W. D. Halliburton on proteid nomenclature, 738; Dr. De'zenne on tryptic digestion, 738; Dr. S. P. Beebe on nucleo-proteid immunity, 738; Dr. Folin on the metabolism of kreatin and kreatinin, 738; Dr. Mendel on chemical and physiological studies on growth, 738; Prof. C. F. Hodge and Prof. M. F. Duncan on structure and functions of the amœba, 738; Dr. R. M. Pearce and Dr. H. C. Jackson concerning the production of somatogenic cytotoxins by the injection of nucleo-proteids, 739; Dr. W. W. Ford on a consideration of the poisons present in amanita phalloides, 739; Prof. W. H. Mainwaring on the application of physical chemistry to serum pathology, 739; Prof. R. Muir and Dr. W. B. M. Martin on the combining properties of opsonins of normal serum, 739; Dr. F. J. Smith and Dr. C. Miller on gastric erosions, 739; Dr. G. H. A. Clowes on the etiology and life-history of malignant new growths, 739; Dr. Samuel Dixon on phthisis prevention, 741; Dr. Gilchrist on certain analogies between influenza and pulmonary tuberculosis, 741; Dr. Probst on the disputed questions in connexion with pulmonary tuberculosis, 741; Dr. Honan on the dust problem as shown in public buildings and private houses, 741; Dr. Robinson on the protection and filtration of water-supplies, 742; Dr. A. R. Diefendorf on the etiology of general paralysis, 743; Dr. C. K. Mills on cerebral localisation in the study of psychiatry, 743; Dr. John Turner on the central nervous system of epileptics, 743; Dr. Aldren Turner on epilepsy, 742; Mr. J. B. Lawford on rare forms of choroiditis, 743; Mr. Lawson on the preventive treatment of sympathetic ophthalmitis, 744;

Dr. Aschoff on the pathological basis of irregularity and failure of the heart muscle, 800; Dr. F. J. Smith on the treatment of typhoid fever, 801; Dr. W. G. Spiller on a case of syringomyelia with a cavity traced from the sacral region to the upper part of the internal capsule, 802; Dr. J. J. Putnam on a comparison of certain modern philosophic doctrines with reference to their bearing on the therapeutics of psychasthenia, 802; Dr. S. Flexner on the serum treatment of cerebro-spinal meningitis, 802; Dr. George Dock on paracentesis of the pericardium, its indications and methods, 802; Dr. McCallum on gastric neurasthenia, 802; Dr. Campbell Meyers on the pre-insane stage of ante-mortal disease, 802; Dr. William J. Mayo on the surgical treatment of duodenal ulcer, 802; Mr. C. J. Bond on the treatment of acute septic peritonitis, 803; Prof. R. Harcourt on the milk-supply and disease, 804; Dr. J. J. Cassidy on the hygiene of the home, 805; Miss Helen MacMurchy on the medical inspection of children attending elementary schools, 805; Dr. F. H. Bryce on the medical examination of immigrants, 806; Dr. Jeanne Drennan on State control of health, 806; Mr. MacGill on legislation for food preservatives, 806; Dr. H. E. L. Johnson on the national supervision and standardisation of food, 807; Mr. William Spooner on sailors' foods, 807; Dr. J. M. Atkinson on plague procedure in Hong-Kong, 807; Dr. Louis S. McMurtry on the surgical and serum treatment of puerperal sepsis, 809; Dr. Ross on the study of 70 cases of ectopic gestation, 809; Prof. Lapicque on electrical stimulation of muscle and nerve, 810; Dr. F. W. Mott on the physiological significance of the convolutional pattern in the brain of primates, 810; Dr. H. Knapp on the dependence of accommodation and motility upon the refraction, 811; Dr. Eugene Smith on extraction of the anterior capsule, 811; Dr. Sterling Ryerson on the surgical treatment of trachoma, 811; Dr. Duane on tenotomy of the inferior oblique with a consideration of the different conditions that may call for the operation, 811; Dr. Dunbar Roy on phlegmon of the orbit simulating a malignant growth commencing in the ethmoidal cells, 811; Dr. H. V. Würdemann on diaphanoscopy of the eye or transillumination of the ocular coats, 811; Dr. T. D. Crowthers on the insanity of insobriety, 812; Dr. C. K. Clarke on dementia præcox, 812; Dr. R. R. Rentoul on proposed sterilisation of certain mental degenerates, 812; Dr. Schofield on mind and medicine, 812; Prof. Arthur Robinson on the study and teaching of anatomy, 866; Prof. J. Playfair McMurrich on a preliminary note on the valves of the iliac veins, 866; Prof. H. H. Donaldson on the architecture of the spinal ganglion, 866; Prof. A. Melville Paterson on the ligamentous supports of the pelvic viscera, 867; Dr. David Waterston on a preliminary note on the brain and skull in Mongolism, 867; Dr. George J. Jenkins on the morphology of the hip-joint, 867; Dr. Ross R. Harris on on the development of the nerve elements in vertebrates, 868; Prof. T. G. Lee on the early development of geomys bursarius, 868; Dr. C. R. Shambaugh on the development of the stria vascularis of the cochlea, 869; Dr. Hamilton Wright on the nature of beri beri, 869; Prof. M. Nicolle on experimental glanders, 869; Dr. Armand Ruffer on the diagnosis of cholera asiatica, 870; Prof. M. Nicolle on the treatment of trypanosomiasis by the "colours of rosaniline," 871; Prof. F. Mesnil on the treatment of trypanosomiasis by the "colours of benzidine," 871; Dr. Hewlett on the virus of small-pox and vaccinia, 871; Dr. Beattie on the bacteriology of rheumatic fever, 871; Dr. St Clair Thomson on operations for correction of deviations of the nasal septum, 872; Dr. John O. Roe on operations for corrections of nasal septum, 872; Dr. George R. McDonagh on operations for correction of nasal septum, 873; Dr. Otto T. Freer on operations for correction of nasal septum, 873; Dr. Smurthwaite on headache: pathological conditions of the middle turbinal, a causal factor, 874; Dr. Perry G. Goldsmith on some unusual cases of frontal sinus suppuration, 874; Dr. Herbert Tilley on some considerations upon certain factors in diagnosis and treatment of suppurative lesions in nasal cavities, 874; Dr. Hanau W. Loeb on a study of the anatomy of the accessory sinuses of the nose, based upon reconstructions of two heads, 875; Dr. Coakley on skiagraphy as an aid in the diagnosis and treatment of diseases of the accessory sinuses of the nose, 875; Dr. Norman Walker on the place and position of dermatology in the medical curriculum, 876; Prof. J. Niven Hyde on the influence of light-hunger in the production of psoriasis, 876; Dr. Johnston on the evidence in favour of an autotoxic factor in production of bullous eruptions, 876; Dr. Robinson on some errors in the treatment of cutaneous cancer, 877; Dr. R. W. Taylor on the evolution of intra-primary prodromal syphilides, 877; Dr. Bulkley on the wrong and right use of milk in treatment of skin diseases, 877; Dr. R. W. Lovett on osteogenesis imperfecta, 877; Dr. W. Ewart on abdominal atony in rickets, 878; Dr. Ashby on the medical aspect of pneumococcal infection, 878; Dr. C. L. Starr on the treatment of tuberculous abscess, 878; Dr. Blackader on rheumatism in children, 878; Dr. J. L. Morse on the dietetic treatment of entero-colitis, 879; Dr. Shaw on a study of the absorption of fat in infants, 879; Dr. Ralph Vincent on the milk laboratory in relation to medicine, 879; Dr. Edmund Cautley on congenital pyloric stenosis, 879; Dr. A. E. Vipond on the glandular system in infectious diseases, 881

British Medical Association, meeting at Toronto: the annual exhibition, 744, 813; surgical instruments and appliances, 745; drugs, 745; foods and food products, 813; sanitary appliances, 813; mineral waters, beverages, &c., 813; publications, 813; miscellaneous, 813; review of, in Annus Medicus, 1813

Somerset, tuberculosis in fowls, 960
Somerset county council and the training of midwives, 82
Somersetshire, isolation hospitals in, 1256; lunacy in, 1257
Somerville, Dr. W. F., influence of high frequency currents on the surface temperature of the body, 1287
Somma, G., sclerema neonatorum, 1283
Sommerville, Dr. D., on the disinfectant properties of hypochlorites of sodium and magnesium as produced by electrolysis, 1143, 1400
Somnambulism, 502
Somnoform physiological action of, 106
Sobajt, Dr. Alice Maud, case of absence of the uterus, 160
Souques, M. A., paralysis of anterior tibial nerve, 1458
Source des deux reines, Aix les-Bains, 1103
Southall Bros. & Barclay, insolubility of Pummer's pill, 1506
Southern v. Thomas and Skyrme, 1618, (Annus Medicus), 1795
South Africa, endemic hæmaturia in, 857; medical practice in, and its complications, 398; patent medicines in, 398; plague in, 1809
South African civil surgeons, 124
South African War, memorial tablet unveiled at St. Mary's Hospital, 201
South American hospital, 1255
Southport shrimps from Holland, 1175, 1625
South Wales and Monmouthshire, University College of, annual meeting, 1175
Southwark county court, case of, Mr. T. H. P. Peers, 1301, 1400
South-west London Medical Society, 1072
Spa treatment and retention of urine, 313
Spa treatment of cardiac dilatation (Dr. W. Black Jones), 1214
Spa treatment of the seriously ill, 832
Spalteholz, Prof. W., Hand-atlas of Human Anatomy (review), 1001
Spas, recovery of residues from brine and their utilisation in the routine treatment at, 242
Spasm of muscles of lower part of trunk and thighs, 1072
Spasmus nutans, 397; and dentition, 208; defective light theory in, 208; in infancy, 207
Specialist, what is a? 258, 323, 463, 523, 682, 760, 882, 896 955
Specialism, what is? (leading article), 882

"Specific" treatment of dysentery, 1496
Specimens, pathological, transmission by post of, 750
Spectator experimental company, 759
Speech, loss of, from fright; recovery under ethyl chloride, 1588
Spelling, the new, 818, 970
Spencer, Dr. H. R., treatment of extra-uterine pregnancy, 1443
Spencer, Mr. W. G., cirsoid aneurysms, 1512; encapsulated sarcoma in pterygoid region, 1512; cystic dilatation of lower end of ureter containing calculi which became engaged intermittently in urethra, 1513
Spencer-Smith, C., municipal muddler, 1400
Spermin, 350
Speyer, Mr. Edgar, honour to, 36
Sphenoidal sinuses, a series of, 874
Sphenoidal sinusitis, 1217
Sphenoiditis, acute, 875
Sphincters, contribution to the pathology of, in cranial and spinal injuries, 1286
Spicer, Dr. R. H. Seaton, micrococcus neoformans vaccine, 517; inoperable cancer of throat benefited by injections of vaccine of micrococcus neoformans, 1218
Spicer, Mr. W. T. Holmes, metastatic affections of the eye, 1145
Spiess, Prof., injections of anæsthetics into cancer of mice, 1172
Spiller, Dr. William G., the Eye and Nervous System: their Diagnostic Relations (review), 1355; syringomyelia, with a cavity traced from the sacral region to the upper part of the internal capsule, 802
Spiller, Dr. W. S., psychic epilepsy, 743
Spinal anæsthesia in surgery, 1160, 1729; (Annus Medicus), 1802
Spinal caries, dorso-lumbar, 1515
Spinal cord, plea for the study of the intermedio-lateral tract in, 1352; sensory conduction in, of 15 cats, 810
Spinal Curvature, Essay on the General Principles of the Treatment of (Dr. H. R. Heather Bigg) (review), 928
Spinal curvature, ocular factors in, 866
Spinal ganglion, architecture of the, 866
Spinal and cranial injuries, contribution to the pathology of the sphincters in, 1286
Spinal and Orthopædic Hospital, Birmingham, 1099
Spine, concussion of the, with some remarks on concussion in general (Mr. Edred M. Corner), 784
Spine, congenital deformity of cervical, 1350
Spine, motor-driver's (Mr. W. J. Burroughs), 23
Spine, osteomyelitis of, in an infant, 93
Spirilla of the mouth (Mr. Kenneth W. Goadby), 1281
Spirits Acts, 1390
Spirits, entered at Customs as "brandy," 242; discrimination of, by the Excise, 242
Spiritualist's will, 1618
Spiritualist and medical man, 697
Spirochæta Duttoni, note on the structure of (Dr. J. W. W. Stephens), 438
Spirochæta Duttoni, the passage of, from mother to fœtus (Dr. Breinl and Dr. Kinghorn), 219
Spirochæta, a new, found in a mouse, a preliminary note on a (Dr. Anton Breinl and Dr. A. Kinghorn), 651
Spirochæta Laverani, 652
Spirochæta pallida, 1217
Spirochætæ from syphilis, yaws and granuloma pudendi, 1217; in mice, 994; nature of, 870
Spirometric readings in stutterers, 256
Spleen, case of enlarged wandering, splenectomy (Dr. R. H. Lucy), 92
Spleen, removal of, in a case of Banti's disease, 733; for traumatism, 1218
Spleen, rupture of the, successful case of splenectomy for (Mr. G. S. Simpson), 364
Spleen, rupture of, in a case of strychnine poisoning in a malarial subject, 515; in typhoid, 1230
Splenectomy, a case of enlarged wandering spleen (Dr. R. H. Lucy), 92; successful case of, for rupture of the spleen (Mr. G. S. Simpson), 364; (Annus Medicus), 1788
Splenic abscess in malarial fever, 1159
Splenomegalic or myelopathic polycythæmia, further note to a case of (Dr. F. Parkes Splint, universal foot, 1345
Spooner, Mr William, sailors' foods, 807
Spores, ringworm, staining and microscopical examination of, 1566
"Spotted fever" in Glasgow, 60
Weber), 1435, 1623, 1687
Spratling, Dr. W. P., epilepsy, 743; study and treatment of epileptics, 1631
Spriggs, Dr. E. L., dilatation of the heart, 1144; gastric ulcer, 1660; effects of meat diet on animals, 1779
Spring apparatus for fracture of the clavicle, 1313
Sprue, treatment of, 1009, 1659
Spurrier, Mr. A. H., Order conferred on, 179
Sputum, tuberculous and articles infected by the tubercle bacillus, sterilisation of (Mr. T. Kirkland and Dr. M. S. Paterson), 426
Squire, Dr. M. F., case of sprue treated by strawberries, 1659
Squirrels, Palm, on a Parasite found in the White Corpuscles of the Blood of (Capt W. S. Patton) (review), 443
Stafford, Mr. Thomas J., honour to, 1376
Staffordshire, infantile mortality in, 423; sanitary progress in, 1678; hospital isolation of scarlet fever, 1737
Stage fright, treatment of, 1552
Stainer, Dr. E., Kapeel's disease, 1218
Staines reservoir water and Thames water, 1226
Staining encapsulated micro-organisms, a new method of, 190
Staining and microscopical examination of ringworm spores, 1566
Staircase, standardised, 1377
Stamboul at the time of Ramazan, 1251
Stammering, some observations on, and its treatment (Dr. R. A. Worthington), 789, 1096, 1186,
Standardisation of disinfectants, 123; of staircases, 1377
Standardising Measurements of Trypanosomata, New Metrical Method of (Prof. A. Lingard) (review), 96
Standing Orders of General Medical Council, revised edition, 1558
Stanger, Mr. W., case of puerperal fever successfully treated with antistreptococcic serum, 654
Stanley, Dr. A., health of Shanghai, 1537
Stanley, Mr. L., cleansing of rag flock, 1563
Staphylococcic affections, 1135
Staphylococcus albus and aseptic wounds, 1340
Starch in rectal alimentation, 1266
Stark, Mr. Joseph, after-effect of ethyl chloride anæsthesia, 257
Starkey, Prof., water-supplies, 742
Starling, Dr. H. J., observations on the arterial blood pressure in heart disease, 846
Starr Dr. C. L., treament of tuberculous abscess, 878
Starvation, deaths from, 1409; local, in treatment of cancer, 1642
State hospitals, reform of out-patient department in Austria, 767
State, medical service for Ireland, 1312, 1452, 1551; medicine and the official nomenclature of diseases, 307; neglect of science, 380; quinine, in Italy, 471; registration of nurses, 170
Statistical increase of lunacy, 814
Statistics (see also Vital statistics)
Statistics, consumption, in Ireland, 52; malaria, in Italy, 836; some Indian, 402; metropolitan lunacy, 1455; the unemployed, an interesting point, 750
Stavros, A. X., acidity of the urine, 1281
Steam, superheated, the therapeutic use of, in gynæcology, almokausis and zestokausis (Dr. Ludwig Pincus), 442
Steamboats, the idle Thames, a suggestion, 1158
Steamships, medical officers to, 1249
Steel, hardening of, by a current of compressed air, 857
Steele, Dr. William Stott, obituary, 1758
Steele, Mr. D., malaria, 1384
Stegomyia mosquito in yellow fever, 1531
Stella, Dr. A., degeneration of Italian immigrants, 1226
Stengel, Dr. A., some clinical manifestations, visceral and general, of arterio-sclerosis, 729
Stenhouse, Mr. J. W., treatment of ringworm, 256
Stenosis, congenital pyloric, 879; of lacrymal duct, 811
Stenosis, mitral, and consecutive cardiac thrombosis, gangrene of both feet and legs due to embolism and thrombosis of the abdominal aorta in its entire extent the result of (Dr. H. W. Syers), 220
Stenosis, mitral, a case of; death from embolism of six main arteries, 439
Stephens, Dr. G. Arbour, stuttering, 256
Stephens, Dr. J. W. W., note on the structure of spirochæta Duttoni, 438
Stephens, Miss H., bequest, 1761
Stephenson, Mr. S., on a form of amblyopia in young children consequent upon inherited syphilis, 357; curious deformities of the eyelids, 1147
Stephenson, Prof. W., puerperal sepsis, 228
Stepney, medical officer's report on food supply, 1256
Stereoscopic Atlas of Anatomy, the Edinburgh (Dr. D. Waterson) (review), 444
Sterile caseous matter, some observations on the effect of, in the treatment of tuberculous disease (Dr. P. Paterson), 493, 516
Sterilisation of catgut by means of benzine, 755; of milk, Paris, 1242
Sterilisation of tuberculous sputum and articles infected by the tubercle bacillus (Mr. T. Kirkland and Dr. M. S. Paterson), 426
Sterilisation, proposed, of certain mental degenerates, 812
Steriliser and vaginal douche, combined, 445
Sterilising urethral instruments, easy methods of, 1074
Sternum, fracture of the, 936; dislocation and fracture of the (Annus Medicus), 1784
Stevens, Dr. John Lindsay, epidemic cerebro-spinal fever, with illustrative cases, 638; increased blood pressure, 729; cerebro-spinal meningitis, 802; cancer of œsophagus, 1074; appointment, 1476; dinner to, 1760
Stevens, Dr. G. T., a Treatise on Motor Apparatus of the Eyes, embracing an Exposition of the Anomalies of the Ocular Adjustments and their Treatment, with Anatomy and Physiology of the Muscles and their Accessories (review), 1779
Stevens, Dr. T. G., dysmenorrhœa, 1667
Stevens, Dr. J. B., fresh-air treatment, 742
Stevenson, Mr. Roland Arthur, obituary, 1557
Stevenson, T. H. C., on the correction of death-rates, 678; birth statistics, 1290
Steward, Mr. F. J., case of primary pneumococcal peritonitis, 297
Stewart, Surg.-Maj. D., volunteer officers' decoration, 678
Stewart, Dr. James, of Montreal, death of, 1179
Stewart, Dr. Purves, diagnostic value of examination of cerebro-spinal fluid, 1517
Stewart, Mr. R. S., death of, 960
Stewart, Dr T. Grainger, diagnosis and localisation of tumours of the frontal regions of the brain, 1209
Stewart, Dr. William, well-merited compliment to, 946
"Stewart scholarships," three, for University of Melbourne, 274
Sticker, Dr., endemic outbreaks of cancer, 1172
Stiles, Mr. H. J., surgical treatment of congenital pyloric stenosis, 880; enterectomy for perforated typhoid ulcer and diffuse peritonitis, 1351; saccular theory of hernia, 1398
Still, Dr. G. F., head-nodding with nystagmus in infancy, 207
Still-born children, registration of, 1698
Still's disease, 1516
Stimuli, conditioned, various modifications and combinations of, 914
Sting, weever, 1295
Stirling, Dr. J. W., sympathetic ophthalmitis, 744
Stirling, Prof. W., modes and means of nutrition, 1161

Williams, Henry, M.D., Russian army and navy medical service, 725
Williams, Dr. Leonard, Minor Maladies and their Treatment (review), 1595
Williams, Llewellyn, on election of Direct Representatives to the General Medical Council, 670;
Williams, Dr. P. Watson, epithelioma of larynx, 1517; operations on nasal septum, 874; antral suppuration, 875
Williams, Mr. W. Roger, Morau and "Jensen's" tumour, 1285, 1382, 1400, 1470, 1544, 1623
Williams, Dr. W., sanitary inspection of schools, 1550; water-supplies of Glamorganshire, 1394
Williamson, Dr. H., adenoma of the labium, 163
Williamson, Dr. R. T., health of school children, 385; type in school books and college text-books, 988
Williamson, W., Surg.-Gen., death of, 951
Wills, C. S., Brig.-Surg. Lieut.-Col., death of, 1094
Willis, Mr. Richard, obituary, 1696
Willis, Thomas, 1330
Willoughby, Dr. E. F., rural water-supply, 181; obituary, 411
Willoughby, Dr. W. G., scarlet fever mortality and hospital isolation, 1750
Wilson, Mr. A. H., summer diarrhœa in Yardley, 1099
Wilson, Dr. F. G., unusual peritoneal anomaly simulating retro-peritoneal hernia, 869
Wilson, Dr. H. A., eye strain, 666
Wilson, Dr. H. B., physical condition of slum children, 1549
Wilson, Dr. J. S., diminution of infantile mortality at Walsall, 968
Wilson, Mr. R. M., medical travelling scholarship, 834
Wilson, Dr. T., reciprocal relations between affections of the uterus and its appendages and the rest of the body, 1425
Wilson, Mr T. M., electrical resistance of the blood and urine as a test of the functional efficiency of the kidney, 682
Wiltshire county council and analysis of tinned meat, 436
Wimbledon and District Medical Society, meeting, 1092
Winchcombe rural district, typhoid fever in, 1475
Winckebach, Prof., heart-muscle, 1145
Winckel, F. von, Handbuch der Geburtshülfe (Handbook of Midwifery) (review), 167
Windle, Prof. B. C. A., public health, 117
"Window" operation for deformities of nasal septum, 643
Windsor and District Medical Society, meeting, 1354
Windsor rural district, drainage in, 1536
Wines, distinctive properties of different, 312
Wingrave, Dr. W., oral sepsis in operations on the throat, 1067
Winsley Sanatorium, 294, 401, 654, 833
Wirsung, Dr., myiasis intestinalis, 403
Winternitz, Dr., subcutaneous injection of oil, 1250
Winton, Mr. A. L., Microscopy of Vegetable Foods, with Special Reference to the Detection of Adulteration and the Diagnosis of Mixtures (review), 863
Wireless telegraphy, new system in, 1675
"Wires, live," at Bolton, 1030; in Sheffield, 1679
Wissenschaftliche Deputation of Prussia, 1405
"Witch" dust extractor, 97
Witnesses, sketching, in court, 457
Wolf, remarkable case of rabies in a, 1302
Women, admission of, to the diplomas of the Royal College of Surgeons of England, 1360, 1472, 1541, 1625, 1637, 1751
Women as sanitary inspectors, 289; increase of alcoholism amongst, in Austria, 1178; respectable, syphilis in, 1102; school training for home duties of, 462
Women, Diseases of (Mr. J. Bland-Sutton and Dr. A. E. Giles) (review), 1289
Women graduates and the University franchise (Edinburgh), 127
Women students, hostel for, Birmingham, 1549
Women of working-classes in manufacturing districts, ignorance of, 386
Women's Hospital, Melbourne, 267
Wood, preservation of, from white ants, 533
Wood, Dr. C., poisoning from wood alcohol, 744
Wood, Dr. G. B., sunshine at Sandown, Isle of Wight, 1472
Woodhead, Prof. G. Sims, cancer, 740; combining properties of opsonins of normal serum, 739; pathology, past and present, of skin diseases, 279; luncheon to, by Ontario branch of the Dominion Temperance Alliance, 673
Woods, Dr. Hugh, election of Direct Representatives upon the General Medical Council, 1164; medical assistance to midwives, 1749
Woods, Dr. Oscar Thomas, obituary, 411
Woods, Mr. R. H., accidentally cut throat 1443; radical mastoid operation, 1666
Woodhull, Dr. Alfred A., Personal Hygiene, Designed for Under-graduates (review), 29
Woodward, Dr. (United States), medical examination of immigrants, 806; phthisis prevention, 742
Woodward, Mr. Horace B., memoirs of the geological survey, England and Wales: soils and subsoils from a sanitary point of view; with special reference to London and its neighbourhood, 176
Wool and anthrax, 413
Wool ships, fires on, 1181
Woolwich, report of medical officer of health, 1237
Words and things, an address on (Prof. T. Clifford Allbutt), 1120
Workers, sanatoriums for, 169
Workhouse, diet and longevity, 1335; infirmary, new, for Plymouth, 694; system in Ireland condemned, 1312
Workhouse instead of the hospital, taken to the, 1175
Workhouses and the temporary care of insane persons, 752; treatment of imbeciles in, 1383
Working-class women of manufacturing districts, ignorance of, 386
Working-classes, a few suggestions for the future of consumptive patients of the (Dr. Paterson and Dr. Shrubsall), 217, 395; leading article, 448
Working-classes, medical attendance on the (Dr. J. H. Keay), 15; leading article, 99
Working men abroad and cleanliness, 1525
Workman, American, food of the, 1379
Workman, Dr. C., cancer of œsophagus, 1074
Workmen, accidents to (France), 1831
Workmen and garden cities, 1292
Workmen's Compensation Act, cases under, 527, 1030, 1222, 1697, 1755, 1834; point in claims under, 318; Wales, 1628; (Annus Medicus), 1795
Workmen's Compensation Bill, 190, 1012; as affecting the general public, 1306; and medical men, 1612
Workmen's, convalescent homes, Manchester, 1474; doctor's fund, Ebbw Vale, 276, 342; dwellings in New Zealand, 1181
Workshops and factories, exhaust ventilation in, 1739
Worms, earth, the possible importance of, as a factor in the spread of disease (Dr. Charles F. Fraser), 223
Worth, Mr. Claud A., A Manual of Diseases of the Eye (review), 233
Worthington, Dr. R. A., some observations on stammering and its treatment, 789
Wound, gunshot, of the common carotid artery and the internal jugular vein, 328
Wound of an intercostal artery, thoracotomy for traumatic hæmothorax due to a (Mr. D. Duff and Mr. J. Allan), 855
Wound of the heart, perforating, suture of, death on the eleventh day (Mr. F. T. Travers), 706
Wounds, aseptic, bacteriology of (Mr. Leonard S. Dudgeon and Mr. Percy W. G. Sargent), 1335
Wounds, bacteriology of aseptic, 1145, 1622; of the heart, surgery of, 327; of the liver, 1102; of the stomach treated by laparotomy, 1102
Wounds and burns, treatment of, by exposure to intense heat, 1738
Wray, Mr. C., the treatment of iritis, interstitial keratitis, &c., by acetozone, 679
Wright, Dr. A. (Toronto), obstetric rules, 1563
Wright, Prof. A. E., honour to, 35
Wright, Sir A. E., his researches and hæmatogenous albuminuria, 497; micrococcus neoformans vaccine, 517; strontium salts and the coagulability of the blood, 436; Principles of Microscopy, being a Handbook to the Microscope (review), 1667
Wright, Prof. A. H., concealed accidental hæmorrhage, 733
Wright, Prof. G. A., phlegmonous cholecystitis, 794
Wright, Dr. Hamilton, nature of beri-beri, 969; prevention of malaria at Port Swettenham, 516
Wright, Dr. W., infantile mortality and goats' milk, 1212, 1307; the rash in cerebro-spinal meningitis, 717
Wright's coal tar inhaler, 1322
Writing, for the blind, 1693; of scholars, 194
Würdemann, Dr. H. V., diaphanoscopy of the eye, 811
Wylie, Dr. Andrew, Heath's method for cure of chronic suppuration of middle ear, 1666
Wynn, Dr. W. H., lupus, 1515

X

Xanthoma with enlarged liver, case of, 1216
Xanthic oxide and cystic calculi, on the x ray shadows of (Mr. H Morris), 141
Xaxa, 1391; tabloid, and Dover's powder, 1359
Xeroderma pigmentosa, 1218
"X. L. all vaporizing fumigator," poisoning by (Mr. E. J. Blackett), 1144
X rays and renal calculi (Annus Medicus), 1767
X ray shadows of cystic and xanthic oxide calculi (Mr. H. Morris), 141; photographs of skull and brain, 1630
X rays, action of, on the ovary of the bitch, 689, 1102; for rhinoscleroma, 1405; in ringworm, 877; in treatment of anæmia pseudoleukæmica infantum, 1147; in treatment of cancer, 321 1172; in treatment of cutaneous cancer, 877; in treatment of epileptiform neuralgia, 175; in treatment of ringworm, 256; work in America and England, 1400; shield for treatment of ringworm, 1670
X rays in General Practice, Use of (Mr. R. Higham Cooper) (review), 1597
X Rays in General Practice (Capt. A. E. Walter) (review), 1221
X rays, urinary calculus and its detection with the (Mr. E. W. H. Shenton), 719

[*For List of Illustrations see next pages.*]

LIST OF ILLUSTRATIONS.

Three Maps accompanying a paper by Dr. J. L. Todd entitled A Means of Checking the Spread of "Sleeping Sickness"—viz., 1, Distribution of Human Trypanosomiasis and Tsetse Flies in Africa, 7; 2 and 3, Distribution of "Sleeping Sickness" in the Congo Free State, 1897 and 1905, 8

Three Figures illustrating Busaco and the Future of Portuguese Health Resorts—viz., Fig. 1, the Monumental Palace and Hotel, showing the Stone Carving and the Sheltered Gallery round the Building, 48; Fig. 2, Garden in front of the Hotel showing the Semi-tropical Vegetation, 49; Fig. 3, the Queen of Portugal's Villa and the Chimes of the Old Carmelite Monastery, with cedar trees that are some centuries old in the background, 50

Tracing illustrating a paper on the Treatment of Surgical Tuberculosis, by Mr. V. Warren Low, 77

Photoprint of specimen of Bulla three days old, magnification about 37, accompanying a paper on Two Cases of Epidermolysis Bullosa, by Dr. Agnes F. Savill, 87

Diagrammatic representation of Fracture of the Upper End of the Tibia from Indirect Violence, described by Mr. R. Lawford Knaggs, 89

Diagram and Photoprint illustrating a Simple Form of Clinical Viscosimeter, described by Dr. A. Du Pré Denning and Dr. J. H. Watson, 89

Illustration of the "Witch" Dust Extractor, 98

Eight Photoprints accompanying a paper on the X Ray Shadows of Cystic and Xanthic Oxide Calculi, by Mr. H. Morris—viz., Fig. 1, Oxalate of Lime, 141; Figs. 2 and 3, Cystin with Phosphate of Lime, 141; Fig. 4, Cystin, D 9, 141; Fig. 5, Cystin, 142; Fig. 6, Cystin, D 8, 142; Fig. 7, Xanthin, 142; Fig. 8, the Shadow of a Uric Acid Calculus to show the slight intensity of shadow as compared with the shadows of cystin and xanthin, 142

Illustrations accompanying a paper on the Influence of an Excessive Meat Diet on Growth and Nutrition, by Dr. D. C. Watson—viz., Fig. 1, showing the Relative Size of Two Male Rats of the same litter after being Fed for Three Months on Bread and Skim-milk (*a*) and Ox-flesh (*b*), 146; Fig. 2, Showing state of Development of the Progeny of Normally Fed (bread and milk) Rats (*a*) in Comparison with Rats of the same age Bred on a Flesh Diet (*b*), 148; eight Charts illustrating (1 and 2) Influence of an Ox-flesh Diet on Young Rats; (3 and 4) Influence of a Horse-flesh Diet on Young Rats; (5) Influence of a Horse-flesh Diet on Adult Rats; (6) Effects of Bread and Sweet Milk Diet on Young Rats; (7) Influence of Bread and Skim-milk Diet on Young Rats; (8) Recuperative Power in Second Generation of Meat-fed Rats, 146, 147, 148, 149

Six Diagrams illustrating a paper on the Radical Cure of Femoral Hernia, by Mr. Aslett Baldwin—viz., Fig. 1, An Incision being made on to the point of a Director which has been passed up the Crural Canal and its point tilted forwards about half an inch above Poupart's Ligament; Fig. 2, Sinus Forceps passed through the opening above Poupart's Ligament, behind the Ligament, and through the Saphenous opening, and made to grasp the Fundus of the Sac; Fig. 3, the Sac pulled out through the opening above Poupart's Ligament; Fig. 4, Needle threaded as described passed through the Neck of the Sac, through the opening above Poupart's Ligament, across the Transverse Ramus of the Pubes, through the Pectineus Muscle, and out through the Saphenous opening; Fig. 5, the Sac has been passed back through the opening above Poupart's Ligament and rests behind the latter and the Transversalis Fascia; Fig. 6, the Two Ends of the Thread are tied, fixing the Sac in its place and obliterating the Crural Canal, 151

Illustration of a Fish-tail Tube Spatula accompanying an article on the Operative Treatment of Laryngeal Papillomata in Children, by Dr. D. R. Paterson, 155

Semi-diagramatic representation of the parts in a case of Congenital Abnormality of the Genito-urinary Organs, described by Mr. G. F. D. Smith and Mr. A. L. H. Smith, 157

Two Diagrams illustrating a Case of Appendix Abscess, under the care of Mr. Russell J. Howard—viz., Fig. 1, Showing Position of Appendix, 161; Fig. 2, Showing Position of Abscess Cavity and Perforation of Duodenum, 161

Illustration of a Modification of Leiter's Urethroscope, described by Mr. W. Wyndham Powell, 169

Illustration of a New Retractor made for and described by Dr. W. Blair Bell, 169

Diagram illustrating a Report of Tests of Grates submitted for the Consumption of Anthracite Coal, 182

Two Photoprints illustrating a paper on Appendicitis and Gangrene of the Vermiform Appendix considered as separate Diseases, by Mr. J. D Malcolm—viz., Fig. 1, Appendix removed 14 days after Recovery from an Inflammatory Attack, 214; Fig 2, Appendix with Glanda, 215

Four Figures illustrating Flagellated Protozoa from a case of Perineal Abscess, described by Dr. E. H. Hunt, 216

Photoprint showing General Appearance of Gangrenous Lesion in a case of Gangrene of both Feet and Legs due to Embolism and Thrombosis of the Abdominal Aorta in its entire extent, the result of Mitral Stenosis and Consecutive Cardiac Thrombosis, by Dr. H. W. Syers, 220

Photoprint showing Shapes and Facets of Gall-stones, accompanying a case of Gall-stones of Large Size passed by the Rectum, by Dr. W. E. C. Dickson, 221

Two Diagrams accompanying a paper on the Possible Importance of Earth-worms as a Factor in the Spread of Disease, by Dr. Charles F. Fraser—viz., Fig. 1, Parasitic Nematode of Worm; Fig. 2, Trichina Spiralis, 224

Illustrations of the "Rastilon" Ambulance Spring, 236

Seventeen Photoprints accompanying articles on Medicine in Toronto—Fig. 1, the First Medical School in Upper Canada, 268; Fig. 2, Portrait of Dr. Christopher Widmer, 269; Fig. 3, Portrait of Dr. John Rolph, 270; Fig. 4, Portrait of Dr. James H. Richardson, 271; Fig. 5, Portrait of Dr. Edward M. Hodder, 331; Fig. 6, Portrait of Dr. William Charles Gwynne, 332; Fig. 7, the University of Toronto, 333; Fig. 8, Portrait of Dr. R. A. Reeve; Fig. 9, Portrait of Dr. James Bovell, 405; Fig. 10, Ward in Sick Children's Hospital, 406; Fig. 11, Toronto General Hospital, 406; Fig. 12, Operating Theatre in Toronto General Hospital, 407; Fig. 13, Plan of the University Buildings, 467; Fig. 14, the Biological Building, 468; Fig. 15, the Medical Building, 468; Fig. 16, Portrait of Prof. A. B. Macallum, 469; Fig. 17, Portrait of Dr. A. Primrose, 470

Three Illustrations accompanying a paper on Removal of a Cerebral Tumour (Endothelioma) which had Invaded the overlying Cranial Bone, by Prof. Barling—viz., Fig. 1, Diagram of a Coronal Section through Tumour, 282; Fig. 2, Photomicrograph of Lower Marginal Part of Tumour, 283; Fig. 3, Photomicrograph of a Typical Part of Tumour, showing its purely Cellular Structure and Whorled and Irregular Arrangement of Spindle Cells, 284

Two Charts showing Blood Pressure accompanying a paper on Blood Pressure and Pigmentation in Addison's Disease, by Dr. Short, 286

Six Photoprints illustrating a paper on Some of the Pseudo-parasites of Cancer, by Dr. A. S. Grunbaum—viz., Fig. 1, Included Cell Degenerating and Shrinking; Fig. 2, Included Cell lying within Vacuole in another Cell; Fig. 3, Included Cell Dividing; Fig. 4, Cell showing "Spermatid Vesicle" and Nuclear Degeneration; Fig. 5, Yeast Cell included in Pulmonary Cell of Mouse; Fig. 6, Cell Degeneration simulating Fig 5, 233

Diagram illustrating an Aural Shield, described by Mr. W. Stuart-Low, 303

Photoprint showing Cannulæ, Probes, and Forceps, accompanying a paper on the Cure of Chronic Suppuration of the Middle Ear without Removal of the Drum or Ossicles or the Loss of Hearing, by Mr. Charles J. Heath, 354

[List of Illustrations continued on next two pages.

LIST OF ILLUSTRATIONS—(*Continued*).

Five Illustrations representing Calf's and Human Hearts accompanying a paper on the Auriculo-ventricular Bundle of the Human Heart, by Dr. A. Keith and Mr. M. W. Flack, 360, 361, 362, 363

Two Illustrations accompanying an article on a Successful Case of Splenectomy for Rupture of the Spleen, by Mr. Graham S. Simpson—viz., Fig. 1, Antero-external Aspect of Spleen showing Laceration of Lower Pole, 365; Fig. 2, Postero-internal Aspect of Spleen showing Laceration and Stripping of Capsule, 365

Illustration accompanying a paper on Some Unusual Forms of Anæmia in Childhood, by Dr. T. R. C. Whipham and Mr. A. N. Leathem, 369

Seven Diagrams illustrating Steps in Plastic Operation upon the Renal Pelvis, accompanying a Contribution to the Plastic Surgery of the Renal Pelvis, by Mr. J. W. T. Walker, 373, 374

Illustration of a Two-way Peritoneal Irrigator, described by Mr. H. M. W. Gray, 379

Portrait of the late Professor Brouardel, 409

Three Illustrations accompanying Observations on the Life-history of Leucocytes, by Mr. C. E. Walker—viz., Fig. 1, a Somatic Division Figure, 428; Fig. 2, a First Maiotic (heterotype) Division Figure, 429; Fig. 3, a Second Maiotic (homotype) Division Figure, 429

Three Diagrams illustrating the Sterilisation of Tuberculous Sputum and Articles infected by the Tubercle Bacillus, by Mr. T. Kirkland and Dr. M. S. Paterson—viz., Fig. 1, Sputum Steriliser with Cover on, 427; Fig. 2, Sputum Steriliser with Cover off, 427; Fig. 3, Tank for washing Sputum Pots, 428.

Diagrammatic Representations of various Forms of Spirochæta Duttoni, accompanying a Note on the Structure of Spirochæta Duttoni, by Dr. J. W. W. Stephens, 438

Illustration of Thimbles for making Wool Mops, described by Mr. E. C. Baber, 445

Illustration of a Combined Vaginal Douche and Steriliser, described by Mr. C. St. Aubyn-Farrer, 445

Diagram of a new Post-nasal Syringe, described by Dr. F. H. Burton-Brown, 445

Four Diagrams accompanying an address on the Technique of Operations on the Central Nervous System, by Sir Victor Horsley—viz., Figs. 1, 2, and 3, from Frazier's "Guide to Operations on the Brain"; Fig. 4, Brain of Macaque Monkey, showing Effect of Vein, Ligature for Displacement of Hemisphere, 488

Photoprint of a Preparation made from the Blood of a case of Jaundice, illustrating an article on two cases of Multiple Infection, by Mr. G. C. Chatterjee, 499

Diagram showing a "Scissors Shield" for Circumcision, described by Dr. H. Dutch, 508

Diagram showing a Uterine Cotton-wool Forceps, described by Dr. J. C. Robertson, 508

Five Diagrams illustrating the Submucous (or Window) Resection Operation for Correction of Deflections of the Nasal Septum, by Dr. E. Furniss Potter, 644

Photoprint accompanying Note on Successful Removal of a Large Hygroma in a Child aged Three Weeks, by Dr. J. Cropper, showing Appearance of Child before Operation, 652

Illustration of a New Metal Catheter Gauge, described by Mr. Cecil H. Leaf, 659

Illustration of the Norledge Extension Apparatus, described by Dr. C. D. Muspratt, 659

Illustration of a Back-flow Catheter for Urethral Irrigation, described by Dr. E. W. Hey Groves, 659

Photoprints illustrating Articles on Portuguese Quarantine Regulations—viz., Fig. 1, the Boat containing the Clayton Disinfecting Apparatus and the Pipes through which the Fumes can be sent into all the Disinfecting Chambers of the Station on Shore or into the Hold of a Ship anchored in the Harbour of Leixoes (Oporto), 685; Fig. 2, Map of River Tagus, 763; Fig. 3, the New Maritime Disinfecting Station at Lisbon, 763

Three Illustrations accompanying paper on Suture of Perforating Wound of the Heart, Death on the Eleventh Day, by Mr. F. T. Travers—viz., Fig. 1, Showing Lines of Fracture in Sternum, 706; Fig. 2, Appearance of Heart after Removal, 707; Fig. 3, Diagrammatic View of Wound, 708

Thirteen Diagrams illustrating a paper on the Pulse in Aortic Disease, the Relation of Pulse Curves to Blood Pressure, by Dr. Thomas Lewis, 714 717

Diagram of Inhaler illustrating an article on a New Method of Administering an Anæsthetic through a Tracheotomy Tube, by Dr. Walter P. Cockle, 717

Two Photoprints illustrating a paper on Successful Treatment of a Case of Thoracic Aneurysm threatening to Rupture Externally, by Mr. Eric E. Young, 783, 784

Photoprint illustrating a case of Osteitis Deformans with Huntington's Chorea, by Dr. C. Mackey, 788

Five Tracings illustrating a paper on Some Observations on Stammering and its Treatment, by Dr. R. A. Worthington, 790, 793, 794

Three Charts illustrating cases in an article on Observations on the Arterial Blood Pressure in Heart Disease, by Dr. H. J. Starling, 849-850

Seven Charts accompanying a paper on a Study of the Streptococci Pathogenic for Man, by Dr. F. W. Andrewes and Dr. T. J. Horder, 782, 853, 854

Illustration of Suprapubic Dressing, oval pattern, described by Dr. G. H. Colt, 860

Illustration of a Facial Protective Mask described, by Mr. Stuart-Low, 865

Diagram of a new Gastro-enterostomy Clamp, described by Dr. T. G. Atkins, 865

Four Charts accompanying a paper on The Injection of Antitoxin in Diphtheria by the Intravenous Method, by Mr. A. O. Bisson, 930

Diagrams illustrating Nutritive Values of Certain Articles of Diet accompanying a paper on Notes on Purin-free Diets, by Dr. W. A. Potts, 934

Four Illustrations accompanying an article on a Visit to Professor Czerny's Cancer Institute—viz., Fig. 1, Façade of Hospital, 957; Fig. 2, Plan of First Floor of Hospital, 957; Fig. 3, Plan of Ground Floor of Research Building, 957; Fig. 4, Portrait of Professor Vincent Czerny, 958

Two Photoprints and three Diagrams illustrating a Clinical Lecture on a Case of Infective Endocarditis involving the Pulmonary Valves and associated with Imperfection of the Interauricular Septum, by Dr. T. W. Griffith, 974, 975

Five Illustrations accompanying a Contribution to the Pathology of Chorea, by Dr. F. J. Poynton and Dr. G. M. Holmes, 984, 985, 986

Two Figures accompanying Some Observations on Enlarged Veins in Children, by Dr. A. G. Gibson, 1054

Diagram illustrating paper on the Detection of Sugar in Urine and its Significance in Connexion with Life Assurance, by Dr. A. M. Kellas and Dr. F. J. Wethered, 1061

Three Figures illustrating a Method of taking Impressions of the Weight-bearing Surface of the Foot, by Dr. W. D. Lawrie, 1067

Illustration of an Improved Vaccinator, described Dr. by A. A. Mackeith, 1079

Three Illustrations of Pelvic Pedicle Needles with Ring Lever Handles, described by Mr. W. S. Handley, 1079

Four Tracings from Radial and Jugular Vein illustrating an article on Some Aspects of Dilatation of the Heart, by Dr. A. M. Gossage, 1126, 1127

Six Charts accompanying a paper on a Series of Cases treated by the Injection of Bacterial Vaccines, by Dr. E. Turton and Dr. A. Parkin—viz., Fig. 1, showing Temperature and Opsonic Index, 1132; Figs. 2, 3, 4, 5, and 6 showing Opsonic Indices, 1132, 1134

Five Diagrams illustrating a paper on the Saccular Theory of Hernia and the Radical Operation, by Mr. R. H. Russell, 1199, 1200, 1201

Four Photoprints illustrating an address on Adolescent or late Rickets, by Mr. H. H. Clutton, 1268

Three Charts, six Tracings, and two Diagrams accompanying a paper on Stokes-Adams Disease and Cardiac Arrhythmia, by Dr. John Hay and Dr. Stuart A. Moore, 1273, 1274, 1275
